Tecnical Skills

Backend
C#(.NET/.NET Core), .NET MVC, .NET Core MVC,ASP.NET Core Web API,Entity Framework & Entity Framework Core MVC, ADO.NET,Node JS

Frontend
Angular,React,Typescript,Bootstrap, Java-script,HTML5,CSS3

Programming Languages
C# language

Framework & Tools:
Entity Framework,MVC Architecture,REST APIs ,Swagger,Postman, Git,GitHub

Database
MS SQL Server

Reporting
SAP Crystal Report

Conceptual Knowledge
Object-Oriented Programming(OOP)

Education

BBA
Southern University Bangladesh
Session 2018-2022

HSC
Dr. Yakub Sharif Degree College
Session 2012-2014

SSC
Bamnikati K.C.K. Secondary School,Patuakhali
Session 2010-2012

RESUME OF
MD SABBIR HOSSAIN
Software Developer in .NET

Professional Summary

.Net Developer proficient in C# and .NET,experienced in MVC and REST API development with SQL Server/Entity Framework, and committed to maintaining high standards through and clean code practices.

Professional Training

IsDB-BISEW IT Scholarship Program   2025 –2026
- Completed a one year (788 hours) intensive software development training program at US Software Ltd. Gained hands-on experience through individual and group projects using ASP.NET Core, .NET Core Web API, Angular, React, Swagger, C#, and MS SQL Server.

Projects

Online Book Shop (.Net Core MVC)
- A web application built using ASP.NET core MVC that demonstrtes full CRUD(Create,Read,Update,Delete) operations using Entity Framework
- **Tecnologies:**ASP.NET MVC,C#,EF Core, SQL Server,Rezor Views Engine

Weather Management System (Web API).
- Created a weather information system that fetches real-time weather data from third-party APIs. Displayed temperature, humidity, and forecast details in a clean, user-friendly interface.
- **Technologies**: C#, ASP.NET, REST API, Postman

Hospital Management System (Asp.Net Web App).
- Built a web-based system to manage patient information and medical tests, using Entity Framework and SQL Server for efficient data handling and Razor Views for a clean UI.
- **Technologies:** ASP.NET Web App, C#, EF, SQL Server, Razor View Engine

Business Management System(DDL,DML).
- Developed a database-driven system with optimized SQL structures using DDL and DML. Implemented stored procedures and triggers to efficiently manage products, employees, and transactions.
- **Technologies:** SQL Server (DDL, DML)

Chatting App (HTML, CSS, JavaScript, Node.js)
- Built a real-time chat application with WebSocket-based messaging and a responsive user interface, supported by Node.js for smooth server-side communication.
- **Technologies:** HTML, CSS, JavaScript, Node.js, WebSocket

E-Commerce Website Development(OnGoing)
- Developed a full-stack e-commerce platform featuring product catalog,sequre authentication,and checkout modules with responsive,user-friendly interface.
- **Tecnologies**: C# RESTful APIs,EF,SQL Server,Angular & React,HTML,CSS,TypScript,Bootstrap
